SILKO

FORMAT DESIGN LAB

Tailor-made kitchens for innovative
fast food outlets

THE KITCHEN IS THE REAL PLAYGROUND FOR THE NEW CHALLENGES OF FAST FOOD OUTLETS

A KITCHEN WITH TAILORED FORMAT

Designing a kitchen means understanding the business dynamics, services, spaces and locations, and the type of relationship and experience you want to offer the customer.

The kitchen is the field where the increasingly demanding challenges faced by fast food outlets are put into play.

THE CHALLENGES OF FAST FOOD OUTLETS

- Energy savings
- Reduced labour costs
- Safety and comfort for operators
- Increased productivity
- On-time delivery
- Food quality and customer satisfaction

WINNING SOLUTIONS FROM THE FIELD

At Silko, we have long understood that the challenges of making formats profitable are not solved with standard equipment and general-purpose solutions, and let alone in the office.

Format Design Lab was created to offer the customer comprehensive support: from conception, research and development to prototyping, industrialisation and production, as well as technical assistance.

For us, the design of the kitchen must be shared with the customer from the outset, in order to best develop the original concept. It's about working in the field and understanding what's really going on at the outlet.

It is a continuous process of innovation that follows and sometimes anticipates the evolution of formats with increasingly functional, performing, and unique workstations.

OUR 10 STRENGTHS

1 We are part of the N. 1 group in the world of Food Service Equipment
We integrate our production with the extensive range of equipment and accessories offered by the 85 companies of the Ali Group.

2 We can answer all your questions
We are a team that specialises in the complete design and construction of fast food outlets.

3 A quality partnership without mediations
We offer total support by taking care of everything, such as installation of the kitchen and work site management.

4 Tailor-made, scalable and cost-optimised solutions
We create replicable kitchen systems that effectively address the unique characteristics of each room by progressively improving cost-effectiveness and even providing locations and chefs.

5 On-site inspection, pre-installation and administration
During the bidding phase we carry out on-site visits to the outlets to check the entrances, spaces, connections and any issues, and also handle all the relevant paperwork.

6 Transport and installation
We take direct care of the delivery, installation, commissioning and functional checks of each piece of equipment and carry out set-up and testing with your managers.

7 Emergency response and service centres around the country
We have formed an after-sales team of specialists who can respond quickly and on time throughout the country and are equipped with complete kits of parts.

8 We train your operators
We train your operators directly in the field, providing training support at all times

9 A world-class spare parts service
With Ali Parts, the spare parts management company of the Ali Group, we ensure that parts are available and dispatched immediately.

10 We help the developers of chains by resolving all issues
We collaborate with contractors and offer all our assistance to ensure that installation and commissioning are carried out to perfection.

OUR FAST SOLUTION
